WARNING

Felt font notes - read at your own peril!

For those who don't know, Felt font is the script used to compose this message.

Notes that explain concepts in the text and translation issues come in Trebuchet or another very legible font.

But I also like writing sarcastic notes and pure rants in this series. Some of them may be rude towards it. Don't read them if you don't like this kind of note.

Don't ask me to suppress the notes, please. Complain in comment sections if you want, but the notes stay. Full stop.

Thanks for understanding.

Wraith.

Redrawer needed for Sprite!

I won't mince my words: **Sprite**, with its combination of hand art and CG, plus the use of photographs to generate backgrounds, is one the hardest series for redrawing. Only aces among aces can do it. It has few redraws per chapter, but most are double spreads that need to be joined and extremely hard and time-consuming. Essentially, if you can redraw **Sprite**, you can redraw anything in B&W that may be thrown at you.

We cannot accept anything less than someone who passes our full test, including the extra difficulty pages, with flying colours: <https://goo.gl/qfns06>

(You can post your application in our home page in the Join Us section - deathtollscans.net - or PM me there or in Batoto (where my name is Kendama). Whatever. If you have the skills, we're willing to abide by your conditions.)

We can also make an exception and let you bypass the test if you are experienced and show us sample PSDs (retaining the unredrawn layers) of your past work. However, that will only cut it if those samples are nothing short of extraordinary. If our jaws don't drop, we'll ask you to take the test.

It took us months to recruit the previous redrawer, so don't expect new releases of this series for a while, unless we're very lucky.
